

Kavindrika Piyushan

IT Undergraduate (University of Moratuwa)

📍 Colombo, Sri Lanka | 📞 +94 756 720 966 | ✉ kavindrikapiyushan@gmail.com

GitHub | LinkedIn | Portfolio

Summary

A passionate, motivated, and skilled IT undergraduate with completed industrial training and hands-on industry experience in full-stack web development and Progressive Web Applications (PWA). Experienced in building scalable, production-level systems using React, Next.js, Node.js, and modern UI/UX practices. A responsible team player with strong adaptability, a positive team spirit, and emerging leadership qualities, committed to working smart, taking on new challenges, and achieving productive goals. Seeking an Associate or Junior Software Engineer role to further apply and strengthen technical expertise.

Education

- **University of Moratuwa**
BSc.Hons in Information Technology | 3.6 SGPA
- **Bandaranayake College Gampaha**
G.C.E A/L Examination 2020 (index-1363252) | Physics : A, Combined Mathematics : B, Chemistry : B

Skills

- **Programming Languages** : JavaScript, Java, C, Python
- **Front-End Development** : React.js, Next.js, React-Native, Vite PWA, Tailwind, Material-UI, HTML5, CSS3
- **Back-End Development** : Node.js, Express.js, REST API
- **Databases** : MongoDB, MySQL, MsSQL
- **Operating Systems** : Windows, Ubuntu(Linux)
- **Toolbox** : Docker, Git, Jira, Postman, Swagger, Arduino IDE, IoT Cloud, Figma, Canva, Photoshop, GIMP, Premiere-Pro, Blender

Industrial Training Experience

Software Engineering Intern

DI11 Soft (Pvt) Ltd | Colombo, Sri Lanka

Mar 2025 – Oct 2025

- Contributed to production-level systems, including IMS Online & Offline systems and company website development.
- Developed full-stack web applications using React.js, Node.js, and modern UI/UX practices.
- Built offline-first PWA solutions with secure authentication, POS features, and data synchronization.
- Worked on SEO optimization, system documentation, and UI/UX design using Figma.
- Collaborated in Agile (Scrum) teams and participated across the full software development lifecycle.
- Recognized as a dedicated and professional team member with strong technical and collaboration skills.

Projects

MergeX (Applicant Tracking System)

 GitHub

Developed an Applicant Tracking System (ATS) with a focus on role-based user management, efficient candidate management, job posting, and application tracking. Designed and implemented full-stack dashboards for five distinct user roles, and created a platform for assessing and comparing candidate performance.

Role : Full Stack Developer | Tech : React.js, Node.js, Express.js, MongoDB, Tailwind

Vertex Game Store (E-com Website)

 GitHub

Developed a web-based platform for selling and managing video games, focusing on a responsive and modern UI/UX. Key features include user management, data visualization, a review system, game management tools, and insights for decision-making.

Role : Full Stack Developer | Tech : React.js, Node.js, Express.js, MongoDB, Tailwind

Agrarian (E-com Website)

 GitHub

Built **Agrarian**, an e-commerce solution aimed at improving digital visibility and optimizing sales for the agricultural sector. The platform incorporates streamlined navigation with breadcrumbs, a powerful search function, advanced product filtering options, and a comprehensive review system to ensure a user-centric experience.

Role: Full Stack Developer | **Tech:** React.js, Spring Boot, MongoDB, Tailwind CSS

Portfolio Website

 GitHub  Portfolio

Developed a portfolio website using React, featuring a well-designed and modern user interface. The website highlights projects, skills, and experiences in a visually engaging way, employing contemporary design elements to create a seamless and professional user experience.

Automated Water Filtration System

 GitHub

Designed and developed an autonomous wastewater treatment system using ESP32-E, automating water quality monitoring, treatment, and safe release into the environment.

Software : IOT Cloud, Blender, Arduino IDE, EasyEda

Hardware : ESP32-E, Voltage and Relay modules, Fans Pumps, Motors, Sensors (pH, Turbidity, Temperature, Liquid Level)

Achivements

- Coders 11.0 (15th Place)
- HackMoral 6.0 (Top 20)
- MoraXtreme 9.0 (45th Place)
- CodeRush 2023 (Participant)
- Champions of the Fusion Football Tournament (Team Leader)
- Fifth Place in the SLUG Football Tournament 2023

Roles and Responsibilities

- Vice-Captain of the Football Team at the University of Moratuwa
- Player of the Road Race Team at the University of Moratuwa
- Member of the Leo Club of the University of Moratuwa
- Member of the Organizing Committee for FIT FUTURE CAREERS 2024
- Mentor of the 'Shilpasara' Project, organized by the Leo Club of the University of Moratuwa
